LATEST DESPATCHES.

WAGER —A London paper says a wager once came off the terms of which were as follows I will bet any man £140 that he cannot make a million strokes with pen and ink within a month they were not to be mere dots or scratches, but fair downstrokes such as form the child's first lesson in writing A gentleman accepted the challenge The month allowed was the lunar month, of only twenty eight days so that for the completion of the undertaking an average of 36 000 strokes per diem was required This at sixty per minute or 3 600 per hour—and neither the human intellect nor the human hand can be expected to do more—would call for ten hours labor in every twenty four With a proper feeling of the respect due to the observance of the Sabbath he determined to abstain from his work on Sunday and by this determination he diminished by four days the period allowed him at the same time by so doing he increased the daily average of his strokes to upwards of forty one thousand On the first day executed at one fifty thousand strokes on the second nearly as many But at length after many days his hand became stiff and weary the wrist swollen and without interrupting the progress over the paper it required the almost constant attendance of some assistant to relieve or friend to besprinkle it with a lotion calculated to relieve it On the twenty third day the million strokes, exceeded by some few thousands, were completed and the piles of paper that exhibit them testify that to the courageous heart the willing hand and the energetic mind nothing is impossible These interesting papers are not placed in the archives of the Royal Society, of which their author is a fellow but were claimed and received by the person who paid the wager

The Scientific American says it is now impossible to construct a burglar proof safe for the thief, with his cylinders of compressed hydrogen and oxygen can in a few seconds burn holes of any size in the hardest metal—his fire drill enabling him in a few minutes to work his way into the strongest safe that ever was constructed

The Treaty with England—The Terms said to Be Favorable to the United States

NEW YORK May 5 —The *Tribune* Washington special says Senators Morton and Cameron in response to telegraphic summons from the President arrived here yesterday They came in advance of the meeting of the Senate in order to become familiar with the treaty of the Joint High Commission, and to examine papers and documents which are very voluminous and intricate relating to the subject of discussion between England and our own Government The treaty has been printed confidentially for the use of the Commissioners, and copies will at once be placed in the hands of all members of the Foreign Relations Committee in this city, and also members of the Cabinet Secretary Boutwell returned yesterday two days earlier than was expected in order to participate in the examination of the treaty, which will occupy the whole time of the Cabinet to-day

The Commissioners have adjourned until Saturday to give the Cabinet time to examine all the conditions embraced in the treaty, and should the Cabinet suggest any amendment or change the same will receive the attention of the Commissioners on Saturday The treaty will then be submitted in duplicate by all members of the Commission on behalf of both Governments, there being no dissatisfaction expressed by any member, and all being fully satisfied that the treaty is just and fair and honorable to both governments Every American member of the Commission expresses the unhesitating belief that it will be ratified and Judge Nelson who is the only Democratic member is enthusiastic in his admiration of its provisions He says no fair minded American who examines the subject intelligently and with candor, can fail to approve the treaty in all points

The report that Sumner is writing a speech in opposition to the treaty, and that he will take occasion in it to explain his unfriendly relations with Secretary Fish is unfounded Sumner has not seen the treaty and he will not oppose it unless it shall appear to his mind after an examination, that it is unwise and defective Morton will probably have charge of the treaty in the Senate

Citizens of Nevada and Yuba counties, California have under consideration the project of building narrow guage railroads to connect their principal towns They estimate at about $12 000 a mile

The Omaha *Republican* says "We have not yet been able to adopt the free trade theory because we find it combatted by every community—West as well as East—in seeking the advancement of its own interests"

The men named Lawlor Fuley and Bell, who worked in this city last year have been discharged from work on the penitentiary at Salem because they would not pledge themselves to vote the Democratic ticket in the next election Pretty game Bill Watkinds is playing and an early, too! Oh, oh, Democrats never do try to coerce free voters!

There was a terrible patricide near Akron O, a few days ago Mr Kennedy, a farmer aged 60 years, was shot dead by his son, a young married man There had been a standing quarrel between the parties for some time The father went to the son's house to take away a horse belonging to him and attacked the son, avowing his intention to kill him, whereupon the latter shot three balls through the father's head

The Sacramento Beet Sugar Company has obtained a first-class expert from Germany Herr Linstrom prefers the diffusion process to that in use at Alvarado The company has four hundred acres of beets on the American river bottom not looking very promising on account of north winds It contemplates getting a seventy five ton sugarie in time for the present crop Two acres of water melons are put out as an experiment in melon sugar making

THE TERRITORIES

The Idaho *World* says that mining operations in the Boise Basin are being rapidly extended this spring

A society composed of men who served in the war against the rebellion has been formed at Olympia Gov Saleman has a leading part in the organization

A Walla Walla paper tells of a Chinaman who left that place for Lewiston a few days since with a band of cattle The horse he rode "bucked" with him, and to cure the animal of this propensity the dirty heathen cut off both forelegs at the knees For this deed of cruelty the Chinaman was arrested and is now in jail at Lewiston

Boyer an Indian half breed, who was found guilty of murder by women jurors at Cheyenne, Wyoming, and sentenced to be hung was executed on the 21st April When asked by the Sheriff, after reading the sentence of death, what he had to say, he replied "Look at me—I no cry I no woman I man I die brave" and so he did, according to the Indian idea of bravery

The Salt Lake and Columbia River Railroad

THE PROJECT PRESENTED BY COL CHAPMAN OF THIS CITY, IN THE PHILADELPHIA BOARD OF TRADE

The Philadelphia *North American* of the 20th April, contains the following report

At the meeting of the 17th inst after the regular business of the evening as reported in our columns on Tuesday morning, a most interesting variation of the usual proceedings took place in the introduction, by Mr Vice President Stokes to the gentlemen present of Colonel William W Chapman, of Portland Oregon who had delayed his departure to that hour for the purpose of meeting the representative men present and of presenting necessarily with great brevity the claims of the proposed line of railroad from Portland Oregon a city numbering 10 000 inhabitants via the valley of the Snake river to intersect the Union and Central Pacific roads at Ogden near Salt Lake

He urged the claims of this road upon the public and upon Congress with much force and eloquence saying that with this link of seven hundred miles completed, through a country of favorable character and easy gradients the great northwestern section of our country 300 000 square miles in extent, would be rendered available for settlement inviting capital and immigration by a soil unsurpassed for agricultural purposes, and a climate healthy and agreeable A great wheat producing country whose in the twenty four years of its residence there, not a single crop failure had occurred

In addition to this, he claimed for the mountainous regions great richness in silver ore and other mineral wealth, and closed his very able and instructive address with a powerful appeal to the influential gentlemen present especially such as may be interested in the western connections and the future extensions of our great road the Pennsylvania Central, and so give as such moral support to this undertaking as may be practicable and when so far advanced that its stock and bonds may be offered to the public to accord it as unstintedly material aid

After closing his remarks and a cordial leave taking, he left for the ten o'clock cars carrying with him the best wishes of the gentlemen present for a pleasant journey to his far distant home

Boston enjoys the advantages of a very stringent prohibitory liquor law, and only 2,720 persons were arrested there in the last ninety days for drunkenness—not much more than thirty a day

POLITICAL NOTES

The Republican majority in the District of Columbia at the recent election was 4 08"

The Republicans of the Third Congressional District of California will hold a convention in Marysville on the 21st June to nominate a candidate for Congress

The Philadelphia *City Item* says "It is well understood that General Grant is a candidate for re-election He is the strongest man in the party and it is by no means certain that the Democrats will be able to find a candidate fit to run against him"

The *Press* on the Democratic organ of San Francisco having engaged in a bargain a political organization with the Irish organ, the *Irish* The indignation excited by such a corrupt bargain and bowing in submission to the dictation of mercenary adventurers asking for boss votes It is high time that the honest Democracy which has been so long and tamely submitted to war reversed, and instead of running after paying out partisan hacks, let the honest Democratic party unite with them in the nomination of the reforms for which they are contending Which was pretty good for high

One of the most curious things in this country has ever known is the present time in New York at the organization of a Senator and the Democratic majority of the constitution involved when it shall go into effect depends on the action of the House of Representatives by Democratic votes Republicans There are from the district which popular vote the Senate They will be counsellor who failed of will hold the balance of power and decide the choice for Governor

SATURDAY MORNING, MAY 6, 1871.

The Ring Organs Making an Effort to Earn their Money

Simultaneously two Democratic papers have published an article in the form of a leading editorial evidently prepared by the attorney for the Wallamet Falls Canal and Lock Company, and designed to justify the swindle by which $75,000 more has been given to construct the canal and locks than would have sufficed for that object The *Herald* is, of course, one of these papers and of course, again, it inserts the article under the old contract by which it got $500 for advertising the scheme. It has been forced to do a great deal of dirty work for that money, and its taskmasters, hard and unrelenting, still keep it at the job

This last effort made by the Ring through editorial columns of their subsidized organ is an attempt to show that it was necessary to give $200,000 to them, instead of $125,000 to another company for the construction of the locks, because, as is alleged, the last company did not propose to build substantial works. This is simply a pretense used to cover an odious transaction The company that offered to construct the locks for $125,000 stood ready to give bonds that the work should such locks as would enable steamboats and other river craft to pass up and down at all times easily and without delay The matter was in the hands of the Legislature and that body might have required whatever conditions it chose, as to the manner in which the work should be executed But the majority would not for a moment entertain any proposition except that from the company, composed mainly of leading Democratic politicians with Senator Ball and Governor Grover's business partner at their head. So intent were they on this great job that they would not even permit a fair presentation of the offer submitted by the other company It was denied on the start that the Ring should have a bonus of $200,000, and they who made the Legislature would permit no proposition to be entertained.

It is instructive to note that while the Ring were laboring to work out its $500 by this transaction, the Democratic press of Oregon City is presenting the case differently That paper,—the *Enterprise* and defends this transaction the one indefensible act of the Legislature It says "there was much disapproval in the Democratic party of the appropriation as in the Republican party, it is generally condemned by the people" We fear this is not the case, though we shall be glad to believe that it was so.

Democratic member of the Legislature took a bold stand against the course of his party in this affair That member was Mr Dorris, of Lane county He presented first against the robbery of the school fund and, second against the donation of $75,000 beyond the sum necessary After expressing his views at length upon the measure, if carried through, would [illegible] Democratic party in the next [illegible], he proceeded to say

I am a favor of the amendment. If I was here to vote money out of the people's pockets, I might favor the bill. If I had private funds to give away should be as willing to give it to the gentleman who favor the corporation as to any body else. [illegible] are not here to vote the people's money away in any unnatural free [illegible] We are here to vote for the people. Here we have a proposition to construct those locks for $125,000. Another responsible party offers to do it with $125,000 I am not acquainted with the gentlemen who form the latter company but I am personally acquainted with all the incorporators of the West Side Company If I should consult their interests and my own private preference I should vote for them. But as here is an opportunity to save $75,000 to the State by favoring his amendment so as to throw the matter open to competition, I feel it my duty to vote for the amendment

We submit that this is better argument than that furnished by the paid organs of the company and it carries with it more weight and authority than this bulletin issued simultaneously by a corporation in the form of an editorial through two papers under their control

The Salt Lake Branch Road

We have seen by an extract from the proceedings of the Philadelphia Board of Trade, which we elsewhere publish, that Col Chapman of this city was before that body while on his recent brief tour to the East, setting forth the advantages of the proposed Salt Lake and Columbia River Railroad During the discussion presented this subject in many points and the warmest interest was in all cases manifested in it. He expresses a belief that the enterprise is one which the [illegible] and capitalists of the country are prepared to undertake It is a matter of importance to the Union Pacific road and would be especially advantageous to the lines connecting with it at its eastern termination. Many commercial cities, including St Louis, Cincinnati, Pittsburg and Philadelphia, would also be interested in the opening of so direct a line to our northwest coast. Col. Chapman is confident that the agitation of the subject will soon produce good results He has received assurances of an effort in this behalf of a highly encouraging nature, and will return to the east as early as September next to counsel further with those whom he met on his recent brief visit there.

We spoke yesterday of a forthcoming address to be issued to the country by the Democratic Senators and Representatives in Congress The report foreshadowing the nature of this address gave out that a paragraph would be inserted declaring that the Democratic party accepts in good faith the Thirteenth, Fourteenth, and Fifteenth Amendments to the Constitution, and that the rights of all citizens, black as well as white, under those amendments must hereafter be respected. The address itself has now come to hand, but we look in vain for such an acknowledgement. A report to New York papers states that this part of the address met with bitter opposition in the caucus, and that was finally stricken out. The party then does not pledge itself to abide by the results of the war. It still entertains a purpose to start a new revolution It is on this ground, then, that the battle must be fought in 1872

At last Bernah Brown gets $1,200 out of the city of San Francisco. This, we suppose, is for the "valuable library," patent office reports and the like, which was destroyed by the mob in April, 1865 He got nothing then ever for the laceration of his feelings, though he claimed that $25,000 would scarcely balm enough

The East Portland *Democratic Era* thinks it would be quite in order just now for a Portland School Director to rise to explain. He says he complained the other night at the School Meeting by saying that his "name"—mild as it is—was "one of the head and not of the heart" No doubt of it. It was all "head" work.

A Startling Example.

Democratic Government flourishes in all its loveliness in New York City. The debt of the city is increasing at the average rate of ten million dollars a year; and the Legislature has just authorized various jobs for the current year for which the city is to issue bonds to the amount of $16,500,000 more A careful estimate shows that the cost of governing the city this year will not be less than $48,000,000, or $50 for each inhabitant. This is the honest, economical Democratic rule which we hear lauded so much, and this is the party to which the people are asked to entrust the General Government in order that profligacy of expenditure may be stopped and honesty economy substituted for it!

The New York *Tribune* enumerates the following jobs for the Ring in that city which have just been carried through the Legislature Whoever reads this list will see how it happened that the Ring could afford to pay the great sum of $65,000 for the single vote which helped to this plunder

The Trustees of our Common Schools, hitherto elected by the people, are henceforth to be appointed for five years each by the Mayor

The Inspectors of Common Schools, hitherto elected, are likewise to be henceforth appointed by the Mayor

The Mayor (Oakey Hall,) Commissioner of Public Works (Tweed) and President of the Department of Public Parks (Sweeny), are henceforth to have exclusive power to appropriate money for all Public Charities, which the Board of Supervisors [that is, the Board of Aldermen] are required and directed to raise by tax, as with all other city expenditures. The money received for liquor licenses are specially set apart as a Charity fund, and are to be apportioned and disbursed by Hall, Tweed and Sweeny aforesaid without appropriation by the Common Council

The Aldermen and Assistants chosen last May for one year are legislated into office till the 1st Monday in January, 1873! There is to be no Charter election till the regular State election in November, 1872.

The Mayor (Hall) is legislated into the Police and Health Boards, and is to be henceforth a member of each

The Controller (Connolly,) whom the people supposed they elected for *two* years last November, is declared to hold that office by appointment of Oakey Hall aforesaid, and to be thus entitled to hold it for *five* years

The Corporation Attorney (Tom Fields) is relieved from his dependence on the corporation counsel and legislated into office for *four* years. He is to control the appointment and removal of his subordinates.

Two new Bureaus and Superintendents—1, of Street Incumbrances, 2 of Railroads and Ferries—are created These are to be filled, as we understand, by Tweed.

The Commissioners of Charities and Correction are increased from four to five—each to be appointed for five years by the Mayor—and their pay is raised from $5,000 to $10,000 per annum

In addition to what is now regularly paid for street-cleaning, the Commissioners (i. e. Tweed) shall have $250,000 per annum to pay for extra street-cleaning

Hall, Connolly, Tweed and Sweeney, are to constitute a Board of Street-Openings and Improvements, with sweeping powers to lay out, open, widen, straighten, &c, &c., streets in all that part of our city below the Central Park.

Such are the changes which our masters, by the aid of the rural Democracy and their convert Winans, have seen fit to make in their own pet darling charter. Every one of them tends to remove power from the people, concentrate it in their own hands, increase patronage and expenditure, and tighten the grip which repeating, ballot-box stuffing, and vote-missounting felons and jail birds have upon the throat of our city through frauds at elections.

We do not know how much O. S. Winans received for his indispensable services in passing these and kindred measures. But we ask—is it conceivable that any man elected as a Republican and able to find his way from Dunkirk to Albany *could* have so voted *without* pay? Or that even $100,000 would be *full* pay for such work?

In the next issue of the *New Northwest* the publication of a serial story, entitled "Judith Reid, or the Plain Story of a Plain Woman," will be commenced. The story will run through the paper during the year. This is a work upon which Mrs. Dunway has been engaged for a considerable time.

Kentucky Democrats resolve in favor of "universal and unqualified amnesty." Of course The controlling spirits in politics in that State were all active, fighting rebels, who had not even the poor excuse of "going with their State."

The daughters of a southern planter are now slaves in Brazil The planter emigrated thither at the close of the war, and was unsuccessful. The Brazilian laws are such that when a citizen becomes in debt, if he has no property, his children are sold as slaves, the prices they bring going to the payment of the obligation Our friend, says the Nashville *Republican Banner*, when he reached Brazil, unwisely became naturalized and a South American citizen, and subject to the laws, thus by his own volition expatriating himself from his native country and its protection. He became involved in debt to some Brazilians. His children were sold as slaves Thus, his two daughters, now grown Tennessee young ladies, are slaves, doing menial work for unlettered masters and mistresses in Brazil, their price paying a devoted but unfortunate father's debt! The amount of the debt, we understand, is $1,200 in gold, and steps have been taken to have the amount placed in the hands of the father.

A novel affair recently took place in Marion county, Mo, being no less than a snake hunt on a large scale The reptiles had become so numerous and so fearless of people, that small children were afraid to go to school, and they even attacked some adults, several having been bitten on their boots, and it had been a common thing for a fifty or a hundred snakes to chase men, women and children across the prairie. A party was therefore organized for their destruction, and the snakes were surrounded and driven into a twenty acre patch of prairie, and the outer edges of the tall grass set fire to The grass burned well, the flames rolling up ten feet high, and as the line advanced the snakes retreated into the center, sometimes making desperate efforts to spring through the flames, but the blaze being too heavy, they were killed in the attempt. One blue-racer was nine feet four inches long, and seven inches in circumference This is the first snake story of the season

The Pittsburg *Commercial* comments upon a statement that "Grant graduated at the foot of his class," as follows "And Lee graduated well up toward the head. That was many years ago. Subsequently at Appomatox, Grant passed to the head, and Lee went to the foot The one began poorly and ended well, the other commenced admirably and finished ill.

The Woman's Suffrage Association, through the Corresponding Secretary, Mrs. E A H DeWolf, announces a Pacific Slope Convention to occur at Pacific Hall, California Theater Building, in San Francisco, on the 16th of May. All the Pacific States and Territories will be represented. The call includes the names of a great many distinguished men and women, among which we may mention the Governors and Associate Supreme Court Justices of Wyoming and Colorado. The Convention will undoubtedly be an event of great interest and significance.

The Wheeling *Intelligencer* says "The niggers won't work" has become a chronic complaint at the South, but the fact remains to be accounted for that the cotton crop of 1870 proves to be one of the largest crops ever raised in the South, and that crop is made and nearly all marketed Who did it? The Ku Klux, perhaps.

Why is a grant of real estate more valid if made on Sunday? Because the better the day the better the deed.

The contention existing between Nova Scotia and the Dominion Government is becoming more serious At the late session of the Nova Scotia Legislature a law was passed disfranchising all Dominion officials, upon which the Dominion Parliament immediately passed a bill restoring them their civil rights It is predicted that there will be intense excitement at the next election.

The usual monthly concert of the Taylor street Sabbath school, will take place to morrow afternoon at 2 o'clock A choice selection of exercises for the scholars has been made, and it is expected that the occasion will be unusually interesting Rev John Spencer, among others will probably address the meeting All are cordially invited to attend

For the month of April the aggregate attendance at the Taylor street church Sabbath school was 1 540 average attendance, including concerts 508 not including concerts, 267, average attendance of infant class, 34 average attendance of officers and teachers, 34 The school is highly interesting and prosperous Superintendent J F Caples, Secretary, J F Clarke

Rev John Spencer is now in our city, the guest of Rev Wm Roberts, pastor of the Taylor street M E Church Father Spencer was a giant in the ranks of our Methodism in former days, and so he is in this Accompanied by his excellent wife, he will leave on the next steamer for a visit to the scenes of his former labors in the Pittsburg Conference Having posted himself thoroughly in every department of Oregon statistics and useful knowledge, Father Spencer will be able in public and private to give valuable information to all persons anxious to learn about Oregon and its resources

The following announcement is made by Rev C. C Stratton, Presiding Elder "To the Preachers of Portland District—It is announced that Dr J H Vincent, Philip Phillips and Dr Moody will be present at the State Sunday School Convention to be held in Portland next week A visit from Rev J S Inskip and others of the National Camp meeting Committee is expected during the summer All the preachers within reach will desire to be present at the service to be held by these parties while among us For this reason it has been thought best to postpone our District Convention for the present"

We are in receipt of a letter from this zealous missionary [Father Diedman] from which we learn that he has been prostrated with sickness nearly ever since his arrival at Baker City, and is still unable to attend to the duties of his extensive mission We are under obligations to Father Diedman for a list of new subscribers

The Boise *Democrat* says that Right Rev Louis Lootens, D D, Bishop of Castabala *in part, infid.* and Vicar Apostolic of Idaho and Montana who has been absent at Rome for eighteen months, is expected to arrive home, in company with Father Maspine, in a day or two He will make Boise his future home, and at an early day commence the erection on the block of land bought for the purpose some time ago, a large building for the establishment of a first class school or college Five Sisters will come with the Bishop, two or more of whom will remain to assist him in the school

STATE SUNDAY-SCHOOL CONVENTION

THURSDAY, MAY 11TH, AT 7 30 P M,

and we hope it will be a similar success Every body is invited to attend, and each Sunday-school is invited to send delegates, and it is hoped a large number will be in attendance

ENTERTAINMENT

FREE PASSAGE HOME

to all delegates who pay full fare in coming to the city

REV J H VINCENT, D D,

will be present, and take part in the exercises. His fine abilities large experience and genial spirit qualify him to be very useful in this his chosen field of labor

PHILIP PHILLIPS, ESQ

the sweet singer, of world wide fame, will conduct the musical part of the Convention, and give one or two "Evenings of Song" during his stay

Ministers, Sunday school workers, everybody that loves children—come to the Convention and stay over Sabbath. Dr Vincent writes from San Jose under date of April 21st

"Get the delegates in by hundreds, don't have one long dry paper or essay on any subject These essays kill a State Convention Let all the churches spend the preceding Sunday in preaching and prayer about Sunday school work I hope there is the largest breadth of feeling among Christians of the several denominations God can give us in Portland a Convention that will be felt all over the State Pray for it Love to all the workers of all the churches who are preparing for this Convention"

We are persuaded that no investment of time or labor will pay so well as to come to Portland and attend this Convention for the cause of Sabbath schools On behalf of Committee,

WM ROBERTS, Sec'y.

VOYAGE IN A TUB—TIGHT ROPE ASCENSION.—The long talked of voyage in a common wash tub, drawn by four geese, to be performed by Mr. Jas Cooke, will take place to morrow He will start in his novel craft from the foot of Rose Island at 12 o'clock, noon, and will arrive at the East Portland ferry landing at one o'clock. Thence he will be attended by a band of music to the Park where, at 3 o'clock, he will perform his terrific feat of walking a rope stretched at an immense height There will be music at the platform for dancers The performance will come off on Sunday without fail

PARLOR SKATING.—To night, the grand opening of the Skating Rink, on Fourth street below between Pine and A, will take place Everything has been arranged tastefully and especially for the enjoyment of both skaters and spectators A splendid instrumental band will occupy the gallery during the entire evening The lovers of this elegant sport will, doubtless, be present in large numbers

BOSCO SOIREE MAGIC.—Oro Fino Theater was densely filled last evening, upon the first appearance of Mr Carl Bosco, in his farewell series of entertainments Not only were the seats all taken but the aisles and orchestra area were filled with extra benches and chairs and occupied, while many unable to obtain seats stood in the passages near the top of the stairs There has seldom been a more general rush at this place of amusement Mr Bosco exhibited a full programme of tricks and illusions, not only amusing but delighting his audience He performs very cleverly indeed such tricks as we are wont to see and his new ones are incomprehensible Many of his illusions are totally new to this country The illusion which he calls 'Transmogrification' is a particularly good one, and consists in producing tableaux and substitution of persons standing on a table in the center of the stage, in the most conspicuous manner This trick and a number of new ones will be shown this evening for the last time

A FRIENDLY CALL AND WHAT WAS SAID.—It is human nature to tell our friends of our ailments We all do it expecting sympathy Sympathy is a great comfort to invalids When we have recovered too we are fond of talking of the medicine that relieved us This is a good trait in human nature It shows we are grateful for kindnesses received

The other day Mrs E Suttcliff was called in to see a teacher of crayon painting whose atelier is in Court street Brooklyn was visited by a lady pupil who had been absent from her class nearly a month What had been the matter? and Mrs. S Have you been sick?"

Very well was the reply What complaint Dyspepsia I thought I should have died Ah! and what did the doctors do for you my dear?" said Mrs S

Nothing responded the young lady A gentleman friend she continued with a tell tale blush induced me to try PLANTATION BITTERS and you see the result I am *perfectly well!*" This conversation occurred in Mrs Suttcliff's studio, and it is here given as she related it, word for word

"Natril History."

ABSTRACT OF JOSH BILLINGS' LECTURE ON THIS TOPIC.

Natural history is the science above. All things that crawl, swim, fly, creep or wiggle have a biography. Although the nunt is several sizes smaller than the elephant, it has the same biography as he has. The instincts of animals are their biography. The cockroach is a bug of large size. He is one of the luxuries of civilization. He is easy to domesticate and yields gracefully to ordinary kindness. He is one of a numerous family, and may often be seen with the naked eye climbing the sugar-bowl. He is born on the first of May and the first of September, semi-annually, and is ready for use in fifteen days. Their food does not seem to be so much what they eat as what they get into.

There is nothing more interesting to notice than a rooster. He is the prizefighter of birds. It is more than fun to hear them crow. Roosters, as a class, do but little household work. They employ their time in crowing and strutting.

The bugbear comes from an imaginary egg and is hatched in an imaginary manner. They are composed of the bug and the bear. They are like a young wild pigeon, the biggest when they are born. Bugbears are plenty in this world, but nobody ever sees them except those who are looking for them.

Then lecturer then read an essay on kissing. The only way to deserve a kiss, he said, was to take one, and then sit down and sing. Kissing an unwilling pair of lips has but little poetry in it. Kissing, like other good things, is anonymous. Adam got the first kiss. He was not the man who could pass such a hand. Angle worms are of earth—earthly, and crawl for a living. It is said that angle worm oil, if rubbed on the back of a man's neck will cure false—if it kills the man. Tree toads are the only branch of the toad family who can climb a tree without boosting. When a toad is on a tree, he conforms to the customs of the tree. They are good singers. They have more music than voice.

Pride all kinds of snakes into one heap, and you have the pestiferous. They have a large amount of antiquity. Eve was imposed upon by a snake. They travel on the lower side of themselves, and go most fluently down hill. They are amphibious, and those who infest the water is the eel.

Mud turtles live in the shell of a house—to which they get attached. They belong to the class known as a close corporation. They never build a house; they cannot fill it themselves. Love is like the measles. We can't have it bad but once, and the later in life we have it the tougher it goes with us. A coquette in love acts as silly as a mouse in a box trap. He who does a good thing secretly steals a march on Heaven. The goose is a grass animal, but can't chew the cud. They are good feeders. The goose lays one egg at a time, in which the gosling lies hid. The goose is very good eating, but not good chewing.

The swine almost always has four legs. They existed a long time before the flood. They always eat what is set before them and never ask any questions. The swine can be trained a great many amusing things. Swine eat a great deal of contrary genius. They will root well.

The smallest animal of the brute profession is the pesky flea. They spring from low life and bite worse than the mosquito, and worry, because they bite us they run. One can fully all over anybody in two minutes. It is impossible to do anything well with a flea except swear, and they are not afraid that you ever catch a flea fly him between anything else.

Next to the monkey the crow has the most likeness to spare. An educated crow is terribly worse than a quack doctor. They can't be found, and can't find anybody. They get killed fast. They are now considered the best eating by good judges. Nature made a mistake when she made crows and didn't.

Jersey lightning is cider brandy three hours out of the cooker than a dash. Three doses of it will burn a man's throat. If a man can survive the first three years he is all right for seventy-five years more. When it is first made it tastes like turpentine and Cayenne pepper. A tin horn will make a man think he has swallowed a gas light. One bottle of sarsaparilla is fatal to the drinkist as a rifle ball to a mosquito.

The clam is a bulbous plant, and resides on the under side of the water. He is early deserted by his parents, and never travels much except on his muscle. Clams was first discovered in the same way as measles was—by being ketched.

The hornet is a red-hot child of nature, of sudden conclusions and sharp impressions. These fiery creatures live in congregations, numbering a hundred souls. I never have examined their social relations closely. They build their nests wherever they choose and are never disturbed. They are always very busy. There is wisdom in all bugs. Hornets are long lived.

The monkey is the shadow of the human species. He has not got a classical head. He has a carrier in his features. Monkeys are older—in beauty. They are the next of kin as pets.

He develops a great individual, and never develops his mind. He is very apt to make a man ridiculous when he wasn't much.

The fox is a literary bird. He has been the hero of history, fable and song. He is also a great bird. He is a foul sinner. He has no moral honesty.

The goat has a good appetite and a sanctified disposition. The male goat has a commission on his lower lip. They can climb anything but a greased pole. What they eat seems to go to appetite. They use the same language as the sheep.

The speaker then read an essay on tight boots. He said he would like to know who invented them. Any man who can wear a pair of tight boots, be humble, and not indulge in profane literature, will make a good husband. Methuselah was the only man who could wear tight boots and enjoy them. Tight boots are an insult to any man's understanding.

Race on is a native American. He resides among the heavy timber and takes charge of the neighboring cornfields. During the winter he ties himself up in a knot and goes to sleep by his fireside. He is not a depraved varmint like the alligator. He will however steal what he can't eat. I have tarried across the dozen, but I would advise no one to keep many on hand. If the raccoon could give his mind to politics, few could beat him.

A kicking cow never lets drive until just as you quit gets full.

Hogs nurse their grudges, but young pigs eat, and then play with each other.

The fly is not only a domestic but a friendly one. How they are created I don't know. They make their grand rush in the middle of summer, they stay with us until the cold weather; they lose their lives early; some find a watery grave by getting drowned in milk cans. Flies, generally considered are like other human beings. Their principal food is everything. They have a remarkable memory for forgetting things. I believe they are of temperate habits. They are the first ones at the dinner table, and see a great deal of good society. A fly is a perfect gentleman.

The lecturer, in conclusion, read short essays on cats and codfish.

The cat, he said, was a domestic animal. They are as meek as Moses, but as full of uncertainties as Judas Iscariot. All there is about a cat that is domestic is that you can't lose one. The most wonderful thing about a cat is death. You may kill one as much as you please, and he is as good as ever. They are very reasonable and very plenty.

The codfish is the fruit of the ocean, which accounts for their saltiness. They want a good deal of freshening before and after they are eaten. They have been called the salt of the earth. The codfish is said to be an aristocrat, and claims to be a relation with the whale, but this is rather fishy.

In conclusion, I have always advised short sermons, particularly on a hot Sunday. If a man is boring for oil for forty minutes and can't strike it he must either have a dull gimlet or be boring in the wrong place.

D. G. Tuttle, residing in Warren, Illinois, died recently from starvation. For twenty-five days he existed without food. He was a believer in spiritualism, and claimed that the spirits had told him he must fast for forty days, after which he would go into a trance, and the spirit would depart, but after six days it would come back and he would rise up and eat. On the day previous to his demise the authorities of the town were called in and endeavored to persuade him to eat, but only succeeded in getting him to take a little beef tea. The remedy came to late, and he gradually sank into a "trance" from which there was no awakening.

"Well, Tom," said a blacksmith to his apprentice, "you have been with me now three months, and have seen all the different points in our trade; I wish to give you your choice of work for a while." "Thank'ee, sir." "Well, now, what part of the business do you like best?" "Shettin' up shop and goin' to dinner, sir."

A celebrated General, in one of his reports, wrote "the best and last point in the battle," but the printer made it "the best and last pint in the bottle."

Maple-sugar is so plentiful in Vermont that it has become a drug in the market, an excellent article selling for from six to seven cents a pound.

LAND DEPARTMENT

OREGON & CALIFORNIA RAILROAD

COMPANY.

SALEM, OREGON, October 22, 1870.

THE FOLLOWING STATEMENT IS MADE FOR information of all concerned:

First—Congress has granted to the Company all alternate sections of the public lands designated by odd numbers within a distance of thirty miles on each side of the railroad, excepting lands to which a pre-emption or homestead claim had attached prior to the withdrawal by Government of the lands co-terminus with the first division of located line from East Portland to Jefferson, at 12 M. February 16, 1870. The second division of located line from Jefferson to a point six miles south of Roseburg, May, 1870, and from the last named point to the California line, 1870.

Second—Persons who have valid pre-emption or homestead claims to any tract on an odd numbered section can purchase the same from the Railroad Company at the Government price of $1 25 per acre in greenbacks, and upon very favorable terms, if they so desire, by filing an abandonment of their claim in the U. S. Land Office, blanks for which will be furnished by the Land Agent of the Company. Such purchase from the Company has these advantages over a purchase from the Government: The party can leave the land if necessary; he can sell the land or mortgage it; he is saved the payment of lawyers' or agents' fees, and expenses of witnesses to go to the Land Office to "prove up" his claims; he can get his title perfect in less time, and he can buy on credit at a low rate of interest.

Third—No sales will be made by the Company until the land is listed over to it by the United States Land Commissioner and Secretary of the Interior.

Purchasers are thus assured that the title they obtain is perfect.
